

Introduction to LS Nav N – 100

Objective:

This course offers a general introduction to LS Nav. The goal of the course is to give participants a basic understanding of LS Nav, what it is, and its main features. Hands-on exercises give participants a chance to practice different processes and to familiarize themselves with the LS Nav Demo Data company, which is part of the LS Nav Demo package. At the end of the course, participants should be able to give a first demo of LS Nav.

Training Success Prerequisites:

No specifics

Intended Audience:

Sales/pre-sales, consultants, support, developers.

All those who are new to the system and want to get an introduction to LS Nav in general.

Number of Days: 2 consecutive days, daily from 9:00 to 17:00

Requirements:

All participants must have a PC or laptop with a new version of Dynamics NAV, LS Nav and LS Omni installed.

Optionally it is possible to download from LS Retail's partner portal a Demo LS Nav Virtual Machine (VM) which is ideal to use on this course.

The VM can be downloaded here: <https://portal.lsretail.com/Products/LS-Nav/Downloads>

This VM has LS Nav with LS Omni installed and ready to be used for testing, training and demos. Since the course will give a general overview of the Omni products, the participants should have a mobile device.

The agenda for the class is as follows:
