### DEVELOPMENT

### LS Central 23.0 was released on Oct. 4, 2023

This version is built on Microsoft Dynamics 365 Business Central 2023, release wave 1, build 23.0.12034.12841. Please find the [Release Announcement](#) on the Portal, and for further details please check out the [Release Notes](#).

We presented the new LS Central Release Plan in August and we encourage you to check out [the announcement to learn more](#), if you are not already familiar with it.

## PARTNER OPERATIONS

### Partner Sandbox Licenses

As of **October 1, 2023**, LS Retail will no longer provide Partner DEV SaaS licenses. All LS Retail Partners that require a SaaS DEV license must contact Microsoft and purchase the **Dynamics 365 Business Central Partner Sandbox** license for their **AAD**.

Microsoft made this offer available in February 2022 to support partners that need non-production environments to learn, test, and deliver end-to-end customer demos with their solutions.

The existing Partner DEV tenants currently running on LS Retail Embed Cloud, will be moved over to the Microsoft BC Public Cloud in the following weeks and will we contact the Technical Contact on your Partner agreement before the move by email. [Please check out the full announcement for further details.](#)

### New Partner Program - Webinar links

We arranged a webinar in September on the new Partner Program, where the Partner Operations Team introduced what is new in the Partner Program that will take effect on November 1. They also discussed the latest offers and told us about new features in the Business Hub, so this webinar is very helpful in many respects.

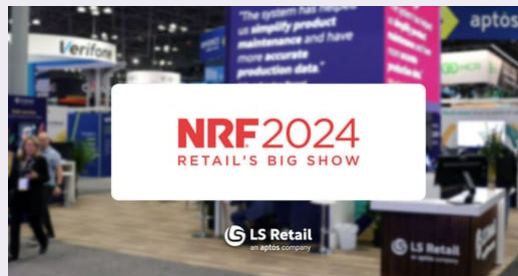

You can access a link to the recording and presentation [here on the LS Retail Portal, login required.](#)
