Get Started with Go Current

Arnþór Magnússon

Software Developer

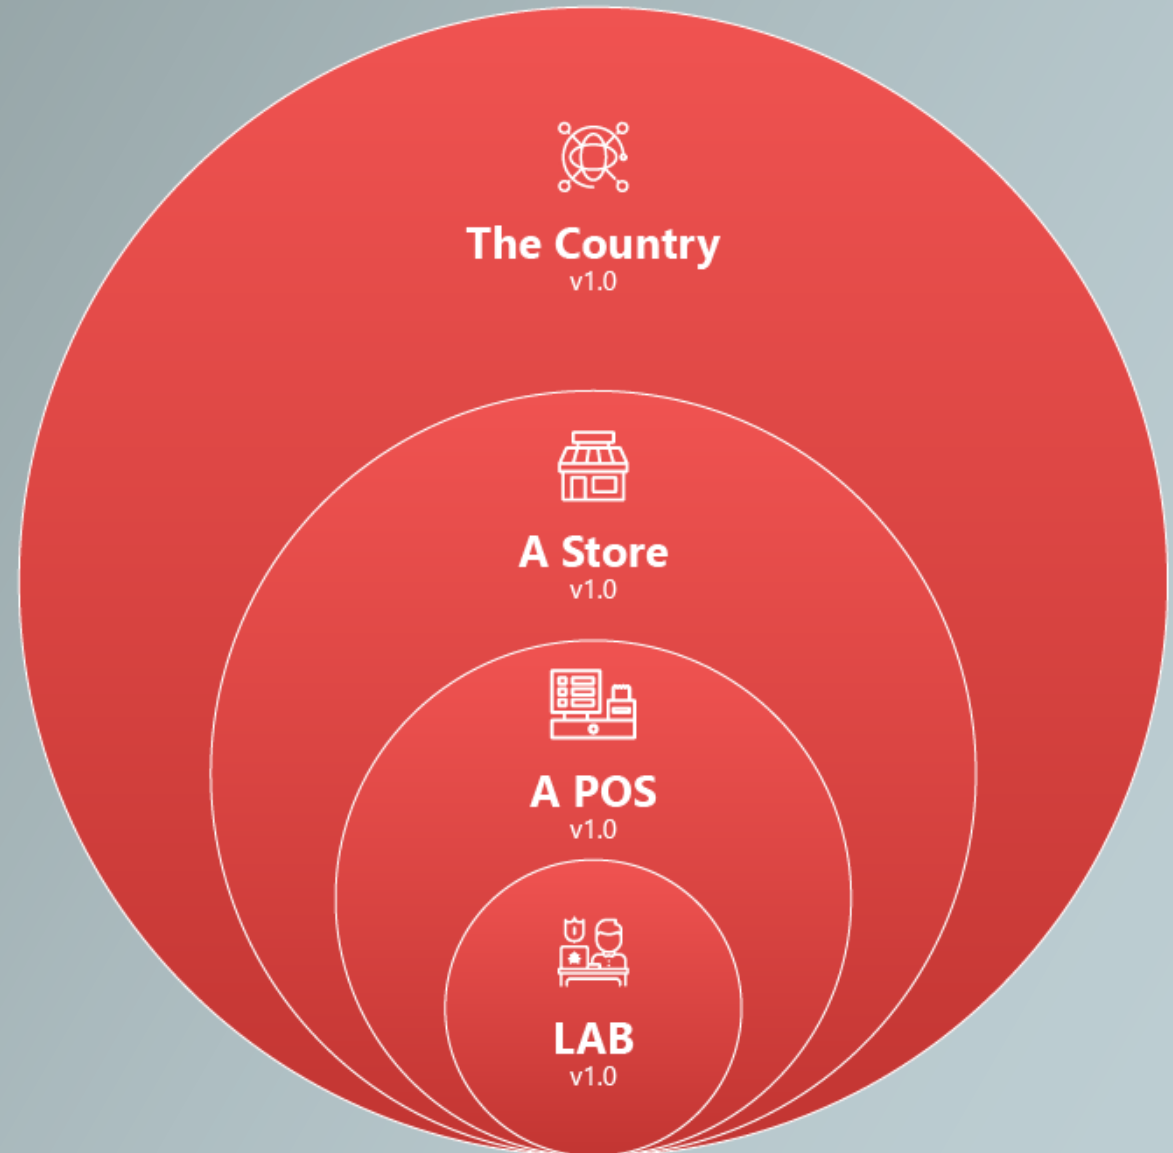

What is Go Current?

- A package manager
- Components are split into packages
- Package can depend on other packages
- Installing a package will install its dependencies

Go Current in the wild

Two pilots live:

- Retail chain
 - 70 POS – Windows Clients
- Pharmacy chain
 - Google Cloud – Service tiers, Omni

Pilots in implementation phase

Internal usage at LS Retail

- Environments for developers
- QA environments
- Continuous integration
- Various automation

THE ROAD AHEAD

The road ahead

Push new installations to clients

Currently you can only push new updates

The road ahead

Update strategies

- Schedule download and install time
- Ask user to update, force after X times

The road ahead

Improve staged rollouts using circles

The road ahead

Monitoring

- Dashboard overview of rollouts
 - Notifications

Preview Version

A 3D rendering of a red 3D glasses set with a film reel on top, emerging from a blue and yellow geometric box. The glasses are red with two dark lenses and a circular pattern on the bridge. A white film reel with black sprocket holes is visible behind the top of the glasses. The box is blue with a yellow and orange diagonal stripe and a green arrow pointing right. The background is a solid dark blue.

Yammer group: <https://www.yammer.com/gocurrent/>

An aerial photograph of a dark, calm pond. In the center of the pond, there is a small, irregularly shaped island that forms the shape of a question mark. The island is covered with dry, brownish vegetation. To the left of the pond, there is a narrow strip of land with a light-colored path or road. The right side of the pond is bordered by a dense line of trees and shrubs.
