PARTNER OPERATIONS

LS Central/LS Nav on-premises perpetual and on-premises subscription pricelists updates - effective October 1, 2024

To minimize pricing disparities between versions by aligning to cloud pricing, LS Retail wants to inform you about upcoming changes to the LS Central/LS Nav on-premises perpetual and on-premises subscription pricelists. These changes are in reference to the latest [Microsoft pricing update announcement](#).

Please note that there will be no updates to the Base Prices at this time, only factor adjustments.

Currency Factor Increase

The currency factor will increase by approximately 20%, varying by region/country, except for the USA, where it will stay at the baseline.

The Pricelists valid as of October 1, 2024 will be available in the coming weeks, showing the updated prices.

Annual Enhancement Plan increase

- effective October 1, 2024

Following the latest Enhancement plan announcement from Microsoft, the annual price of Enhancement Plans (EP) will increase for on-premises perpetual products purchased through DPL.

We have compiled a comprehensive [spreadsheet](#) that provides a detailed overview of the features of our products and their evolution over time. This tool can be leveraged to provide compelling reasons to customers for upgrading to the latest, more secure, and supported versions of our products. By remaining active on an enhancement plan, customers can enjoy a multitude of benefits, which are outlined [here](#).

DEVELOPMENT

LS Central 24.0 was released on April 8, 2024

Release date April 8, 2024. This version is built on Microsoft Dynamics 365 Business Central 2024, release wave 1, build 24.0.16410.18056.

LS Central version 24.0 is a major release in our new release plan.

Please find the [Release Announcement on the Portal](#), and, for further details, check out the [Release Notes](#).

Analytics for LS Central 2024.1 released

In this version of Analytics the focus has been on the new Hospitality report and on adding Budget and Section and shelf report pages to the Sales Analytics report. The new Hospitality report includes sales and inventory reports. Reports aimed especially at quick service and fine dining and KOT information from the Kitchen display service. It includes three dashboards and over thirty overview and detail report pages.

This release also includes a few bugfixes in reports and data warehouse.
